Subject: CS/CNET/ESL Project Showcase - Friday, May 12th, 10am

Dear Ohlone family,

If you happen to be on campus on nearby, please stop by Friday **May 12th, anytime between 10:00 am - 10:45 am, Fremont Campus Building 1, Floor 2** to casually visit with CS/CNET/ESL students showcasing their final projects. This is usually a fun end-of-semester event. See photos below for a flashback/preview. 😊

Between 10-10:45am, visit student teams with final projects integrating different current technologies to create positive impact on real-world challenges. Students represent Art, Business, CS, CNET, Engineering, and ESL departments. This semester includes the debut of ESL students in this event. Hooray!

Please visit with 1 group or more. Usually, it takes less than 5 minutes per group. Some groups may have a simple feedback form (3-4 questions) for you to complete via a QR code. (Bring your phone. 😊)

At 11am, enjoy a casual lunch, courtesy of Dean Lori Silverman and the CS/CNET faculty.

If you know of others, from campus or in the community, who might be interested in this event, please feel free to forward this info.

Thank you!

Liz & Jim & Suporn
